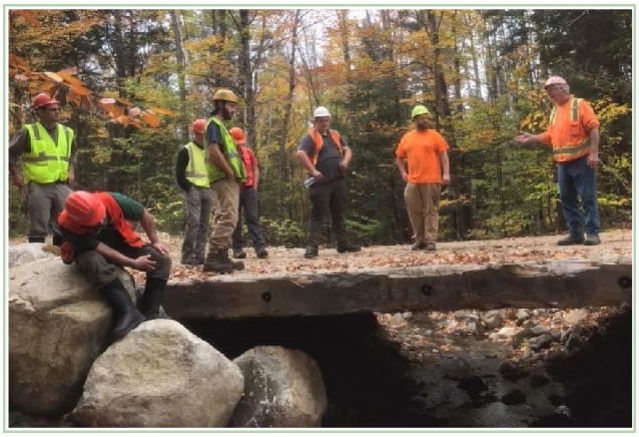
2023 Master Logger Water Protection Workshop

When: May 11, 2023 - Fort Kent
May 24, 2023 - Jay
Time: 7:45 a.m. - 3:00 p.m.
Where: Fort Kent, ME & Jay, ME
Cost: Free!



Employees, foremen and owners of Master Logger Certified® companies should join us for an outside, interactive workshop that will cover protecting Water Resources through BMP's, harvest planning, oil/ diesel spill best practices and protecting Riparian habitats.

This workshop will focus on:

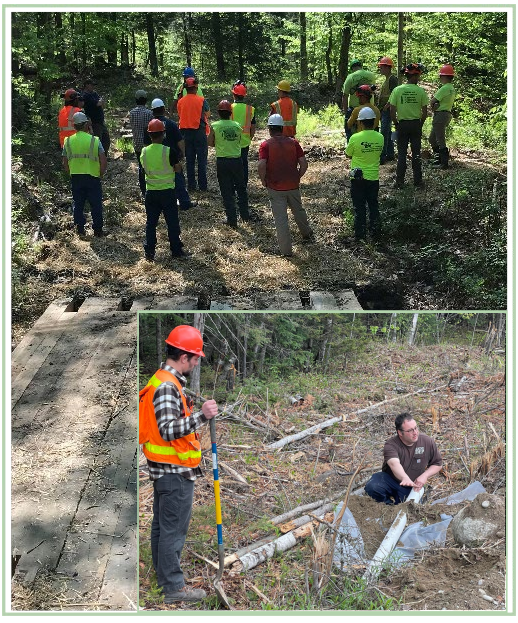
- BMP closeout methods
- BMP's for roads, ditches and culverts
- Oil Spill Handling
- IFW - Protecting Riparian Habitat

This workshop is for Master Logger Certified companies, but other loggers, foresters, landowners, municipal officials are encouraged to attend pending space

Continuing Education Credits available through (CECs):

- Master Logger Certification
- SAF credits (pending)
- Other (pending)

Each logger will enter their name and company name to win a wooden skidder bridge! The more employees you bring the better the chances! We will also be giving away spill kits! Each attendee will receive a Maine BMP Manual.



Register by 5.8.2023 as space is limited.

Registration can be completed online at tcnef.org, by phone: 207.688.8195 opt. 2, or email: masterlogger@tcnef.org

A hearty lunch will be provided!

Partners include:

U.S. Endowment for Forestry and Communities
TNT Road Company Fort Kent, Maine
George Merrill & Son Logging
American Forest Management
LP Building Solutions
Department of Environmental Protection State of Maine
Northern Forest Center Live the New Forest Future
Maine Department of Agriculture, Conservation & Forestry Forest Service

The workshop will include a short morning session from each presenter and then a field session with each presenter having a training station.
